## **Exploring ‘Millions of Years in North Texas’**

THE COLONY, Texas — The Colony Public Library’s Local History Committee will host a natural history program at 10:30 a.m. Feb. 8 in the multipurpose room of the library, 6800 Main St.

Presented by Texas Master Naturalist Donna Cole, “Millions of Years in North Texas” explores the natural history of the area and how the past has shaped the region we see today. Learn how suburban North Texas, part of the endangered Blackland Prairie ecosystem, would have been virtually unrecognizable as little as 200 years ago.

For more information, email Megan Charters, technical services librarian, at [mcharters@thecolonypl.org](mailto:mcharters@thecolonypl.org).
