Roadwork scheduled for Knight Drive

THE COLONY, Texas — Starting at 7 a.m. Monday, May 19, crews from The Colony Public Works Department will begin pothole and street repair on Knight Drive between Wagner Drive and North Colony Boulevard.

Nearby residents are advised that the street will be closed off during the day while construction is taking place. The work will result in one lane of traffic along that portion of the street after hours when workers are not present.

Also, motorists in the area should expect delays and watch for detour signs directing thru-traffic into the neighborhood from Witt Drive over to Blair Oaks and then to North Colony.

Once finished with the portion between Wagner and North Colony, street repair work will continue up Knight Drive in the coming months.
