TCFD battles two-story fire on Sandhill Circle

THE COLONY, Texas — At 5:12 a.m. Friday, June 6, The Colony Fire Department responded to a residential structure fire in the 5900 block of Sandhill Circle.

Upon arrival, firefighters discovered a heavy fire at the rear of the structure which had already extended into the second story attic. A second alarm was then called for mutual aid fire companies from surrounding cities.

A search of the first floor was conducted to confirm that the residence had been evacuated. Interior crews were unable to continue firefighting efforts in the structure due to the heavy involvement of interior fire conditions. As a result, firefighters went into defensive fire operations and continued fire suppression from the exterior of the structure and protected neighboring exposures from fire spread.

The homeowners were able to evacuate safely and no injuries were reported from the fire companies on scene. Mutual aid was received from Little Elm, Lewisville and Carrollton fire departments.

For more information, please contact The Colony Fire Department at 972-625-3944.
